

5G-MONARCH

5g-monarch.eu

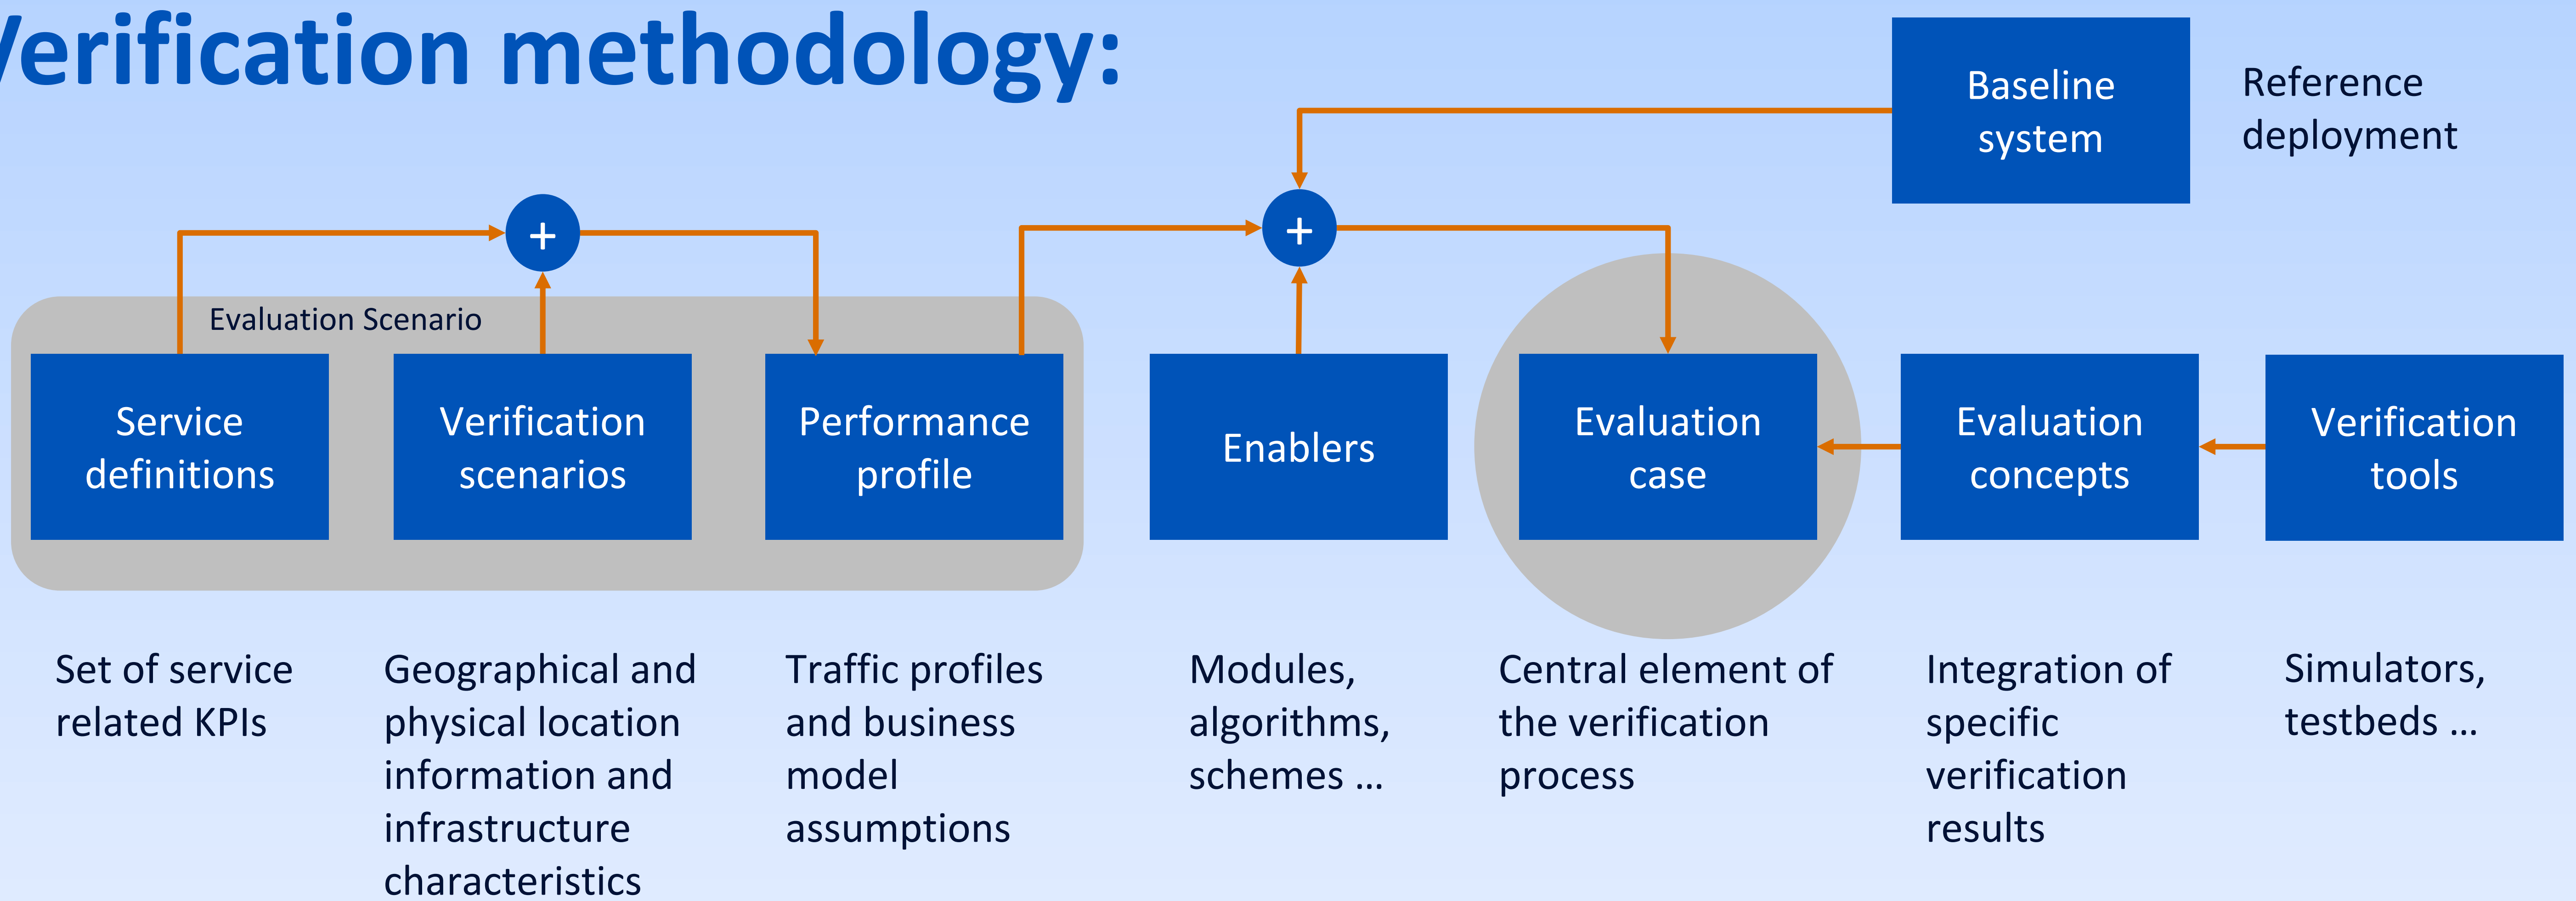

Verification & Validation of 5G Mobile Network Architecture

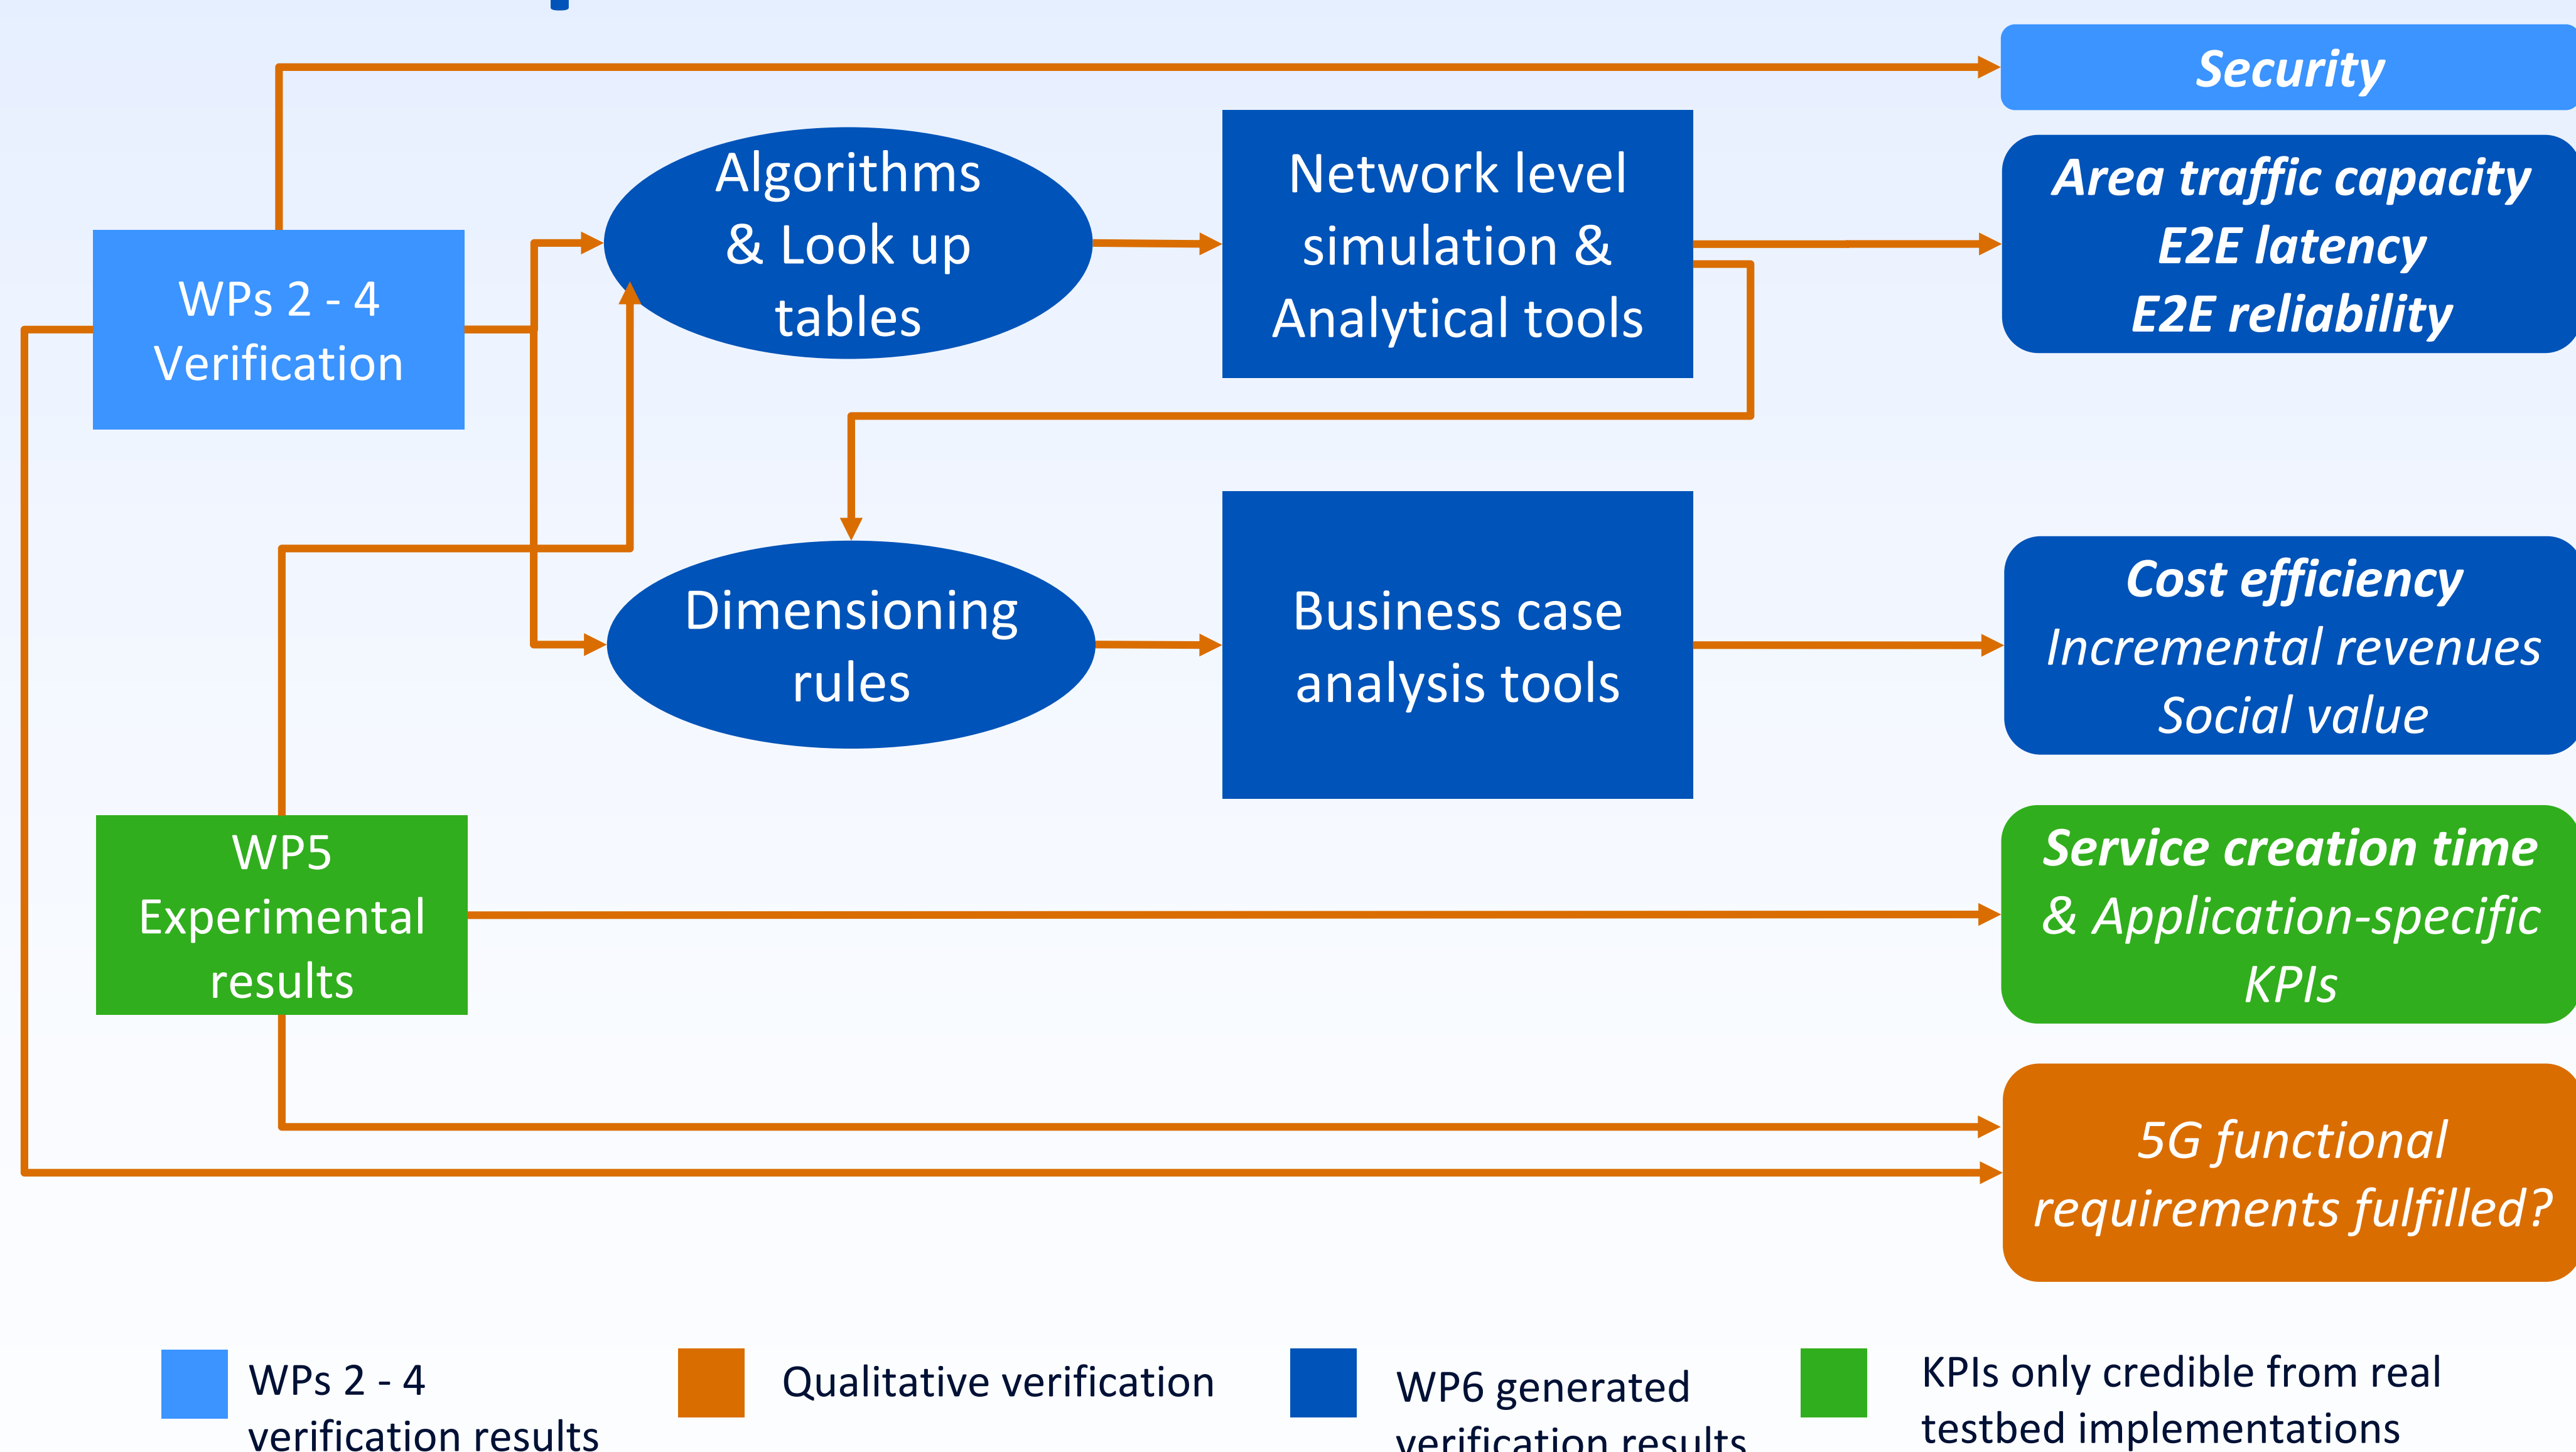

Objective:

- Demonstrate the feasibility and benefits of 5G-MoNArch innovations/enablers by verifying technical and economic KPIs
- Validate project results with potential stakeholders

Verification methodology:

Evaluation concept:

■ WPs 2 - 4 verification results
 ■ Qualitative verification
 ■ WP6 generated verification results
 ■ KPIs only credible from real testbed implementations
